

# Unijet

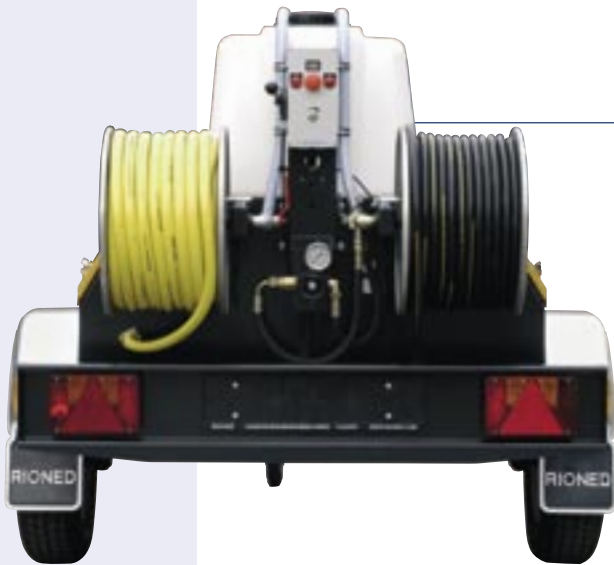

*New hose reel hanging system on ergonomic height*

High pressure  
jetting trailers

- Large control box
- Super noise damped
- Very stable road holding
- Choice of different engines, pumps and water tanks

# Unijet

*The Unijet is a compact noise damped jetting trailer, which is suitable for professional unblocking and cleaning of drains and sewers up to 400 mm.*

The motor/pump compartment is fully closed and provided with bottom plate, fire braking isolation material, a mechanical cooling system and special exhaust. Therefore the Unijet is super noise damped and the cover can remain closed during operation.

The special construction results in a stable road holding. The low weight enables the trailer to be towed by many vehicles. This makes the Unijet very popular for professional cleaning companies, municipalities and installing companies.

The Unijet is standard equipped with hose reels of cast aluminium, offering more stability. The hose reels and large control box are mounted at perfect working height, giving you ultimate operation comfort. The operator has full control of the Unijet at the back.

The very service accessible Unijet can be delivered with 375 or 500 litres water tank. Furthermore the Unijet is available in various pressure and flow, with extra options e.g. Riomote® radio remote control and Riopulse® pulsator system. It is practically possible to build the machine you desire.

*Option: hydraulic high pressure hose reel*

## Technical details

<b>Water tank</b>	375 of 500 litres
<b>Drive</b>	B&S 18 hp petrol engine Honda 20 hp petrol engine Honda 24 hp petrol engine
<b>Pump</b>	Rioned/Speck high pressure pump P30 or P41 with water filter and pressure regulator
<b>Capacity</b>	140 bar / 40 lpm – 150 bar / 45 lpm – 150 bar / 55 lpm – 130 bar / 60 lpm
<b>Outfit</b>	Manual high pressure hose reel with 60 m x NW 13 high pressure hose, manual supply hose reel with 50 m x NW 19 supply hose. Control box with ignition key and control lights, 2 jet nozzles – open and blind, 1 jetting gun with 850 mm lance and flat spray nozzle.
<b>Weight</b>	As from 425 kg
<b>Dimensions</b>	3250 x 1550 x 1480 mm
